

Road Signs and Traffic Control

Traffic Laws And Road Safety · Answer Key · 35 Questions

1. What do comprehensive signs indicate on a roadway?

- A) Temporary restrictions
- B) Comprehensive rules**
- C) Speed limits
- D) Parking regulations

2. Which of the following road users are NOT allowed on a freeway?

- A) Pedestrians**
- B) Motorcycles 50cc or less
- C) Animals in reserved parking areas
- D) Tractors during freeway maintenance

3. Under what condition are hand signals not allowed on freeways?

- A) During an emergency
- B) When overtaking
- C) When not in the far right lane
- D) At all times, except in an emergency**

4. If you are in the far right lane and another driver wants to overtake, what should you do?

- A) Accelerate to prevent overtaking
- B) Move to the next lane on the left and do not accelerate**
- C) Stop the vehicle
- D) Signal to the driver behind

5. What is the speed limit within a residential area?

- A) 50 km/h
- B) No limit
- C) 30 km/h**
- D) Variable based on time of day

6. Which vehicles are NOT allowed in a residential area, except for loading/off-loading goods?

- A) Vehicles weighing more than 3500 kg or with more than 10 seats**
- B) Motorcycles 50cc or less
- C) Tractors
- D) Electric motorcycles

7. What does a red cross over a road sign signify?

- A) The sign is no longer valid**
- B) A new restriction is introduced
- C) The speed limit is reduced
- D) Overtaking is prohibited

8. What does a red cross over a 'dual-carriage freeway begins' sign mean?

- A) The dual-carriage freeway ends
- B) A single-carriage freeway begins
- C) Freeway rules no longer apply**
- D) Overtaking is prohibited

9. Selective restriction signs can indicate that a regulatory sign applies:

- A) Only to all vehicles
- B) During certain times, to certain vehicles, or in certain directions**
- C) During the day only
- D) At all times

10. A secondary sign with 'For 5km' beneath a regulatory sign means the regulation applies for:

- A) The next 5 minutes
- B) The next 5 kilometers**
- C) A distance of 5 meters
- D) A duration of 5 hours

11. What does a steady yellow disc traffic light signal mean?

- A) Proceed immediately
- B) Stop before the white line unless it causes an accident, then wait for green**
- C) Stop and wait for a red light
- D) Proceed with caution

12. What should you do when you see a flashing red disc traffic light signal?

- A) Proceed with caution
- B) Stop as for a 4-way Stop and give way to pedestrians**
- C) Speed up to clear the intersection
- D) Ignore the signal if no other traffic is present

13. What does a steady green man signal indicate?

- A) Pedestrians must wait
- B) Pedestrians may cross within markings, and drivers must give way**
- C) Drivers may proceed regardless of pedestrians
- D) Cyclists may cross

14. What does a flashing red man signal indicate?

- A) Pedestrians can cross freely
- B) Pedestrians must wait for the steady green man**
- C) Pedestrians already crossing should stop
- D) The signal is out of order

15. What does a steady green arrow signal allow you to do?

- A) Proceed in any direction
- B) Proceed in the direction of the arrow, giving way to pedestrians and vehicles still crossing**
- C) Stop and wait for further instructions
- D) Turn left only

16. What does an overhead steady green arrow signal mean?

- A) You may not drive in that lane
- B) You may drive in the lane over which the signal is displayed**
- C) The lane is closed
- D) Proceed with caution

17. What does an overhead steady red cross signal mean?

- A) You may drive in that lane
- B) You may not drive in the lane over which the signal is displayed**
- C) Proceed with caution
- D) The lane is for emergency vehicles only

18. What is the purpose of warning signs?

- A) To indicate parking areas
- B) To warn of potential dangers or hazards ahead**
- C) To provide directions to destinations
- D) To enforce speed limits

19. Warning signs are typically shaped as white triangles with a red border. What color is used for temporary warning signs?

- A) Blue
- B) Green
- C) Yellow**
- D) Orange

20. What should you do when you encounter a warning sign?

- A) Accelerate to pass the hazard quickly
- B) Reduce speed, proceed with caution, and be prepared to take evasive action
- C) Stop and wait for instructions**
- D) Ignore the sign if the hazard is not visible

21. What do hazard marker plates indicate?

- A) The location of the nearest petrol station
- B) The position of a hazard or obstruction on or next to the roadway**
- C) The direction to a town
- D) The distance to a traffic light

22. What does a sign showing 'Tunnel ahead' instruct drivers to do?

- A) Stop before entering
- B) Switch on headlights and do not overtake**
- C) Honk the horn
- D) Reduce speed to 30 km/h

23. What does a sign with 'Steep downhill ahead' suggest?

- A) Accelerate to maintain momentum
- B) Change to a lower gear if necessary**
- C) Overtake slow-moving vehicles
- D) Stop and rest

24. What does a 'Slippery road ahead' sign warn drivers about?

- A) Road construction
- B) Reduced visibility
- C) The road surface being slippery, especially when wet**
- D) A sharp bend

25. What does a 'Traffic control ahead' sign warn of?

- A) A sudden change in road layout
- B) Regulatory traffic control signs or signals that may require you to give way or stop**
- C) A pedestrian crossing
- D) A sharp bend in the road

26. What does a 'Stop sign ahead' warning sign advise drivers to do?

- A) Slow down and prepare to stop
- B) Stop immediately**
- C) Give way to all traffic
- D) Proceed with caution

27. What does a 'Sharp bend ahead' sign warn about?

- A) A gentle curve
- B) A change in road layout indicating a sharp turn**
- C) A traffic circle
- D) A concealed driveway

28. What does a 'Two-way traffic flow ahead' sign indicate?

- A) The road becomes a one-way street
- B) Traffic will be coming from both directions; keep to the left**
- C) Overtaking is permitted
- D) The road narrows

29. What do 'Moving hazards ahead' signs warn of?

- A) Static obstructions
- B) Potential dangers from vehicles crossing or entering the road, or people/animals suddenly appearing**
- C) Changes in road surface
- D) Traffic congestion

30. What is indicated by hazard marker plates with inward-pointing arrows?

- A) The road continues straight ahead
- B) The road ends at this point and you must turn back**
- C) The road splits into two lanes
- D) The direction of a sharp bend

31. What do 'High-speed freeway exit countdown signs' indicate?

- A) The distance to a junction
- B) The distance in meters to the exit, with each white bar representing 100m**
- C) The recommended speed limit for the exit
- D) The number of lanes at the exit

32. What does a 'No through-road' sign indicate?

- A) The road continues indefinitely
- B) The road ahead does not continue, as indicated by a red bar**
- C) The road is closed temporarily
- D) The road is one-way

33. What information do 'Guidance signs' provide?

- A) Warnings of hazards
- B) Information about traffic control signals
- C) Guidance on distances and directions to destinations**
- D) Rules for specific road users

34. What is the color combination for 'Local direction signs' within a town or city?

- A) White/yellow on a green board
- B) Black on white**
- C) White/yellow on a brown board
- D) Red/black on a white board

35. What does a 'Freeway' name symbol indicate?

- A) The name of a town
- B) The name of a river
- C) The name of a freeway**
- D) The name of a street
