- A) United Kingdom
- B) United States
- C) Japan
- D) France

5. The G7 task force on semiconductor challenges will also focus on which critical infrastructure issue?

- A) 5G network expansion
- B) Undersea cable connectivity
- C) Satellite internet deployment
- D) Quantum computing infrastructure

6. In 2025, which G7 nation is projected to have the highest digital ad spending?

- A) United Kingdom
- B) Germany
- C) France
- D) United States

7. What initiative aims to mobilize private capital for sustainable infrastructure, including digital infrastructure, within G7 countries?

- A) The Global Digital Compact
- B) The Partnership for Global Infrastructure and Investment (PGII)
- C) The Digital Economy Accord
- D) The G7 Digital Transformation Fund

8. Which technology has the potential to unlock tremendous economic growth and is a focus for G7 cooperation, with a common vision announced for its future?

- A) Artificial Intelligence
- B) 5G Technology
- C) Quantum Technologies
- D) Blockchain

9. In terms of AI app downloads in 2025, the United States led in raw volume, but where did it rank among G7 nations in adoption rate?

- A) First
- B) Second
- C) Fifth
- D) Eighth

10. As of 2025, what is the projected global market size for artificial intelligence?

- A) \$391 billion
- B) \$732 billion
- C) \$1.81 trillion
- D) \$6.42 trillion

11. According to 2025 data, which G7 nation sees some of the highest relative levels of advertising spend as a percentage of GDP?

- A) Canada
- B) Italy
- C) United Kingdom
- D) Japan

12. What percentage of enterprise workloads are hosted in the cloud in Canada as of 2025?

- A) 58%
- B) 61%
- C) 65%
- D) 72%
