

# Earth Science Basics

Earth Science · Answer Key · 5 Questions

---

## 1. What is Earth Science the study of?

**A) The Earth and its systems**

- B) Stars and galaxies
- C) Chemical reactions
- D) Living organisms

## 2. Which of these is NOT a major branch of Earth Science?

A) Geology

**B) Biology**

- C) Oceanography
- D) Atmospheric Science

## 3. What does Geology primarily study?

**A) The Earth's physical structure and substance**

- B) The ocean's currents and marine life
- C) The atmosphere's composition and weather patterns
- D) The stars

## 4. What does Oceanography primarily study?

**A) The Earth's oceans**

- B) The Earth's landforms
- C) The Earth's atmosphere
- D) The Earth's core

## 5. What does Atmospheric Science primarily study?

**A) The Earth's atmosphere**

- B) The Earth's rocks
- C) The Earth's oceans
- D) The Earth's plants
